<roadrider90293@gmail.com>

As a community, we have been discussing our perception that the incidence of cancer is greater among our long time friends and neighbors in the Westchester area because of pollution caused by LAX. And now, LAX wants to expand. We are just residents, without command of the law or technology attendant to this complex issue and have been seeking help. We read an L.A Times article that said that David Pettit is addressing a similar issue with respect to rail yard expansion in the Wilmington area and wonder if we should talk to him. You are listed on the NRDC website as his "contact" person. Can you help? Can you arrange a telephone call or meeting with Mr. Pettit? Or suggest a course of action for us to follow?

We have copied Craig Eggers, our Neighborhood Council representative, who is also working on this issue.

Thank you.
